

New Roof for Gymnasium Petrovca, Singerei District

The Gymnasium was built in 1995. But the school already has significant problems that needs to be solved. One of the most serious problems was the problem with roof, which was in a very desolate condition. Thanks to the financial support of Mrs. Brigitta Walder (CH), HILFSWERK LIECHTENSTEIN (FL), priest Hans Bock (through Catholic parish Schierling, Germany), priest Erwin Benz (CH), Mrs. Regina Weiss (Germany) and district council Singerei (MD) we had the opportunity to implement this project.
